

MAYSVILLE WEATHER.

What We May Expect For The Next Twenty-Four Hours.

THE LEDGER'S WEATHER SIGNALS.

White streamer—FAIR.  
Blue—RAIN or SNOW.  
With Black ABOVE—TWILY WARMER.  
If Black's BENEATH—COLDER!  
Unless Black's shown—no change we'll see.

The above forecasts are made for a period of thirty-six hours, ending at 8 o'clock to-morrow evening.

A LAZY FELLOW.

Nightly fond of fishin',  
Good as good can be,  
But I keep a-wishin'  
That the river'd come to me.  
Like the weather sunny,  
When the bees are all alive;  
Want they'd bring their honey  
To me an' not the hive.  
Hunter's horn a tootin',  
Powder on the shelf,  
Like to go a-shootin'  
If the gun would load itself.  
Fond of turkey eatin'—  
Mighty good an' sweet,  
But it's overabundant  
When you have to eat the meat.  
World I never doubt it—  
Has a lot to give;  
Only trouble 'bout it  
Got to work to live.

THE OUTLOOK GOOD

For the Coming Crops, Especially Cleveland Badges.

The writer took a stroll through a portion of Fleming county Friday noting the prospect for coming crops.

The outlook for corn, wheat, rye and oats are very flattering in my native county.

I cannot refrain from referring to one or two other crops which seemed very profitable namely, Cleveland Badges and the beautiful profile of the Hon. Rolla Hart, whose aspirations are for Congressional honors.

Cleveland Badges are nothing new to the writer, as he wore them forty years ago in old Fleming. O.

CONGRESSIONAL CONVENTION

Republican candidate to be Named at Augusta June 12th.

Pursuant to call, the Republican Congressional Committee of the Ninth District met at the Central Hotel at 1 o'clock Saturday afternoon.

Chairman Ed. Daum of Brookville called the meeting to order and announced its purpose—that of fixing a place and time for holding the Convention to nominate a Republican candidate for Congress from the Ninth District.

Thomas A. Davis was made Secretary. A call of counties showed the following represented and by whom:

- Bath—Not represented.
- Boyl—Thomas W. Mitchell.
- Bracken—Alex. A. Yelton, Ed. Daum, H. C. Metcalfe, A. D. Yelton.
- Carter—Not represented.
- Fleming—J. B. Glascock, C. L. Dudley.
- Greenup—E. A. Jones, proxy.
- Harrison—R. H. Conway, W. D. Frazer.
- Lawrence—Thomas A. Davis, proxy.
- Lewis—E. A. Jones.
- Mason—D. P. Ort, Thad. F. Moore, W. D. Cochran.
- Nicholas—James S. Huff.
- Robertson—Not represented.
- Rowan—W. W. Rose.
- Augusta, Flemingburg, Ashland and Carlisle were placed in nomination for the Convention, when Augusta was chosen by a final vote of 6 to 4 in favor of Carlisle.

The choice of Augusta was then made unanimous.

Tuesday, June 12th, at 1 p. m. was fixed as the date for holding the Congressional Convention.

Saturday, June 9th, was fixed as the day for holding the County Conventions, the several counties to adopt their own method of choosing delegates, and to fix the hour.

The basis of representation will be one vote for each 50 votes and for each fraction over 25 votes cast for Benjamin Harrison for President in 1892.

The several counties will be entitled to the following vote in the Convention:

No. Votes.	
Bath.....	23
Boyl.....	31
Bracken.....	30
Carter.....	36
Fleming.....	31
Greenup.....	32
Harrison.....	35

GOOD WORK.

Mission Sunday-School at the German Protestant Church.

THE LEDGER is a warm friend to Home Missions.

It was gratifying, therefore, when its scribe dropped into the German Church, Second street near Short, yesterday afternoon and there saw more than a hundred persons gathered to spend an hour in thankfulness to the Lord.

The Sunday-school was but recently organized by members of the First Presbyterian Church, and its influence for good is already manifest.

Robert A. Cochran, Jr., is Superintendent, and among the teachers are some of the most prominent Sunday-school workers in the city, male and female.

The singing was excellent and it was a revelation to the writer to witness the interest and the vim which characterized the proceedings.

Among the members of the church the scribe met a gentleman who has lived nearly opposite the premises for more than half a century, and he said: "If anybody had told me three months ago that I would ever hear such singing in that church, as I have heard this afternoon, I would not have believed it."

Thank the Lord, there's one Missionary enterprise on a successful basis in Maysville. O.

The body was brought to this city and taken to the undertaking establishment of Q. A. Means.

BADLY HURT.

Pease's Mills Injured By a Street Car Saturday Night.

Pease Mills, Turner of the Maysville Manufacturing Company, took a turn at the dog show Saturday night.

It was late when the curtain fell, and among many others Mr. Mills took passage on the owl car for his home at 1044 East Second.

Before he knew it the car had passed his house some distance, and he got off to wait for a Westbound owl that was due about 12 o'clock from the bean fry at Dieterich's Park.

Being tired he sat down on the end of a crossie to rest, and it was not many moments before he was asleep.

Along came the owl, laden with passengers, and with Motormen Dressel at the throttle the car was shifting along smoothly, and all went joyously until the vestibule struck Mr. Mills.

He received considerable cut on the right temple, a bruise on the left side of the head, and his right arm, which had been caught under the guard, was severely torn and bruised about the elbow. No bones were broken. Mr. Mills was taken home and Dr. Pangburn dressed his injuries. He will be laid up for some days.

This is Mr. Mills's statement, made to THE LEDGER, and he is free to say that no blame attaches to any one but himself.

Attempted Escape.

Jailer Kirk had his suspicions early this morning that something was up of the ordinary among his guests in the "State Department" of the County Bastille. An investigation disclosed the fact that one of the bars had been sawed completely to one and another party shown. Just how it was done was as yet undiscovered, however. In this section of the jail are kept several notable criminals, William Logan, Mill Allensworth for grand larceny, and Edward Jones for horse stealing.

And Echo Answers Why.

Would Madeline Pollard, if she would visit Kentucky, be given the same kind of a joyous demonstration that is being accorded Col. Breckinridge? We think not. Why shouldn't there be but one standard of virtue for men and women? But the women are largely to blame that this is not the case. When a woman falls she is ostracized by both men and women, but how different when a man falls. He is accepted into society, the same as the purest man or woman, and nothing is thought of his sin. It should not be. If men will not ostracize their fellow man who falls, why should women? In this way they can bring about the one standard of virtue for both. We are glad to see the noble women of Kentucky protesting against Col. Breckinridge again being honored by the state.

THE MAGIC CITY.

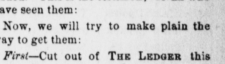

GREAT SUCCESS OF "THE LEDGER'S" GIFT TO PATRONS.

Instructions How to Get a Set of the Handsomest World's Fair Views Published.

THE LEDGER on Saturday began distributing to its patrons the finest series of World's Fair Views that have yet been issued. This is the testimony of all who have seen them.

Now, we will try to make plain the way to get them:

First—Cut out of THE LEDGER this coupon:

Mail or bring to the office of THE LEDGER SIX Coupons like this, of different dates, and you will receive a silver and receive Art Portfolio No. 10 of the World's Fair.

NOTE—Six Coupons of different dates and Ten Cents are required for each Art Portfolio. There will be sixteen numbers.

May 14, 1894.

Second—When you have cut out SIX coupons of different dates, if you live in the city and your paper is delivered by carrier, bring them to this office with ten cents, and one book of the Views of the World's Fair.

Third—If you have mislaid any of your coupons, you can get the books at 15 cents each, and you can get the best numbers at any time. After the set is finished appropriate binding can be had at a small cost.

The set comprises sixteen books, and when completed it will form a most magnificent volume. There's no other way in which you can secure such an art treasure for so little money.

PLEASE REMEMBER.

When we say six coupons, we don't mean five.

When we say coupon, we mean the entire coupon with the border around it, and not a piece of it.

The date at the bottom of the coupon is changed every day, and you must send us six of different dates.

Under no circumstances will any exceptions be made to the above requirements.

# THE THIRD TIME

Rev. Dr. T. DeWitt Talmage's  
Tabernacle Burned.

Singular Coincidence That Every Fire  
Was on Sunday.

The Congregation Had Just Left the Morning  
Service, Except a Few. The Hotel  
Regent Also Burned. The Loss  
Over One Million Dollars.

New York, May 14.—Fire seems to be the Nemesis of Rev. Dr. DeWitt Talmage and the members of his congregation. Their beautiful new tabernacle at the corner of Clinton and Greene avenues, Brooklyn, was destroyed by fire Sunday morning. The flames broke out just after those who had attended morning service had left the building.

Not only was the church destroyed, but the Hotel Regent, and a number of buildings were also greatly damaged. The fire broke out in the rear of the building, which was filled with worshippers, it is almost certain that a dreadful panic and loss of life would have resulted.

This is the third time that the Talmage tabernacle has burned. It is a singular coincidence that every fire was on Sunday. Everything that was destroyed Sunday was destroyed by the building.

Perhaps the loss which will give Dr. Talmage most is that of the memorial stones which he brought from the east, and which were set in the wall at the right of the organ.

When the fire broke out, the organ, which was in the rear of the building, was in the hands of the organist. The organist, Mr. C. H. Adams, was in the hands of the organist. The organist, Mr. C. H. # NEW PROCESS.

A German Makes Steel By the  
Aid of Electricity.

Fifty Per Cent. Saved in the Making  
of Steel and Other Metals.

It is Known as the Tausig Process and  
Provides for Smelting and Casting  
Under the Influence of Rarified Air.

WASHINGTON, May 14.—A reduction of the cost of casting steel and other metals by fifty per cent., a great saving in time, the production of castings free from oxidation and blow-holes, most important of all, the production of pig iron in mountainous and remote districts having water power and ore, but not coal, these things may result from the application of electricity, according to a new process described in a report to the department of state by U. S. Consul Frank Mason, at Frankfurt, Germany.

The process is known as the Tausig process and provides for smelting and casting under the influence of rarified air. An air-tight furnace lined with glazed firebrick, has its hearth connected with a low-voltage electric current by gravitation. The fire-brick lining forms an efficient insulation, and the electric current is sent through the metal directly into the use of any fuel or the employment of carbon electrodes. Thereby the fused metal is nearly pure and free from carbon, and the continuous vacuum in the hearth and gases produced increases the fluidity of the molten material, prevents oxidation and blistering, and produces a smooth casting of the highest mechanical qualities.

HARD TIMES.

A Report Favorable to an Investigation  
of the Condition of the Laboring  
Classes in the United States.

WASHINGTON, May 14.—Chairman McLean, of the house committee on labor, has completed the report favorable to an investigation by a special joint committee of the senate and the house of the depressed condition of labor and of the Coxey movement.

The report advocates immediate action and says:

"That congress should endeavor to alleviate this condition of affairs can hardly be questioned, and the cause of such financial and industrial depression as the committee may find will more thoroughly enlighten the public mind as to the causes of the depression and the means of relief."

The report also says that the committee found the influx of pauper labor against the skilled American workmen, and that the committee found the influx of pauper labor against the skilled American workmen, and that the committee found the influx of pauper labor against the skilled American workmen.

# THE IRON SCALE.

It Will Be Almost Identical With the One  
Now in Use.

PITTSBURGH, Pa., May 14.—The  
committee of the Amalgamated  
association completed its work shortly  
before midnight on Saturday, and  
with the Pittsburgh delegates will  
leave Monday for the convention at  
Cleveland. The arrangement of the  
scale this year required much less  
time than that of the year formerly  
and when presented to the convention  
will be found to be almost exactly like  
the one now in force. Whatever altera-  
tions are made in the work of the  
scale by the delegates, if any, will be  
very slight, and will not raise the basis  
of the schedule much above the very  
low price for pig iron now in force.  
The number of delegates who will be  
in attendance will be 160, about sixty  
less than for the past two years. The  
convention is expected to last at least  
usual, and is expected to be ended in  
ten days.

LABOR MASS MEETING

Indorses Coxey and Calls for a Labor Con-  
vention.

INDIANAPOLIS, Ind., May 14.—A  
monster meeting of organized labor and  
railway trainmen was held in the Em-  
pire hotel here last night. Under the  
auspices of the Central Labor union.  
The speakers were Eugene V. Rebs,  
president of the American Rail-  
road Brotherhood, and George W. Brown,  
president. Both seemed flushed with  
the recent victory in the strike on the  
Northern Pacific conducted by the new  
Knappton union, and organized as it  
is said, would figure in politics, not  
on questions of wages, which the or-  
ganization could only wisely deal with  
after the election of November 3.

DEATH IN CANDY.

The Extraordinary Carelessness Regarding  
Smoking. Discovered by Factory In-  
spectors.

CHICAGO, May 14.—The state factory  
inspectors here have found a candy  
factory where girls are employed with  
insufficient ventilation. A number of  
the girls were found to be suffering  
from the so-called "candy factory" disease.  
The inspectors found that the girls  
were suffering from the so-called "candy  
factory" disease. The inspectors found  
that the girls were suffering from the  
so-called "candy factory" disease.

Blinded by a Torpedo.

PARKERSBURG, W. Va., May 14.—  
Olin Tamm, aged 19 years, while  
playing with a railroad torpedo, caused  
himself to be blinded. At first it was  
thought his eye was in the forehead.

Coxeyites Refuse Work.

HASTINGS, Neb., May 14.—Bennett's  
army of 70 men arrived Friday evening.  
The Coxeyites refused to work on the  
railroad. The Coxeyites refused to work  
on the railroad. The Coxeyites refused  
to work on the railroad.

Mrs. Cleveland Departs.

WASHINGTON, May 14.—The white  
house is at present without any dis-  
tinguished occupants. Following the  
departure of the president, Mrs.  
Cleveland left at 7:10 Sunday evening  
for Buffalo, N. Y., where she will make  
a brief visit with her mother, Mrs. Fol-  
son.

St. Louis May 14.—The board of di-  
rectors of the Merchants' exchange  
has been requested to take action, not  
with regard to the alleged loss of the  
government crop report, but to take  
such steps as may have the report  
abolished entirely.

Why She Committed Suicide.

PROVIDENCE, R. I., May 14.—The  
story of the suicide of a young girl, Anna  
Hill, died Sunday morning at her  
home near there from a dose of poison  
which she had taken because her  
mother would not let her drop out of  
a neighboring farm.
